Website Registration Form

Near the end of 2006, we launched a new website: <http://www.gfsteonline.org>. Using our new site, as Fire Chief or a Fire Chief's designee, you will be able to access your department's records that our agency holds.

To be able to log in as a Fire Chief or Fire Chief's designee, we will need you to please submit an email address and password for website login purposes. Please only allow the Fire Chief, Training Officer and/or designee access to these, as records for all department members may be accessed from this username and password.

If you already have a departmental account for your department there is no need to fill this form out unless you would like additional departmental accounts.

PLEASE DETACH AND REMIT THIS SECTION TO:
